Syncfusion PDF Viewer

The Syncfusion PDF Viewer is a lightweight and modular component for viewing and printing PDF files. It provides the best viewing experience with core interactions such as zooming, scrolling, text searching, text selection, and text copying. The bookmark, hyperlink, and table of contents support provides easy navigation within and outside the PDF files.

Annotations

This document is generated by Syncfusion PDF Viewer with all the annotations created programmatically. The annotations provide an extra information associated with a particular point in a document or other piece of information. The annotations that are created programmatically can be modified at the UI. The annotations that are not yet supported are rendered flattened. They cannot be selected or modified.
